CAREER OBJECTIVE

Cloud Computing enthusiast with hands-on experience in AWS services for automation, data processing, and hosting. Skilled in designing serverless workflows, creating data visualizations, and optimizing storage solutions. Seeking an AWS-focused role to contribute to cloud infrastructure and automation projects.

TECHNICAL SKILLS

- **Cloud Services:** AWS (S3, Lambda, DynamoDB, Textract, SES, QuickSight, Glue, Step Functions, IAM, CloudWatch, Terraform)
- **Programming:** Python, Java, Flutter (Dart)
- **Databases:** DynamoDB, MySQL
- **DevOps/Other Tools:** Git, GitHub, Postman, Linux Basics

PROJECTS

Automated Receipt Extractor (S3, Lambda, Textract, DynamoDB, SES)

- Designed a serverless workflow to extract data from uploaded receipts. Used S3 triggers to invoke Lambda, processed images with Textract, stored results in DynamoDB, and sent email notifications via SES.

CSV Data Visualization (S3, QuickSight)

- Uploaded CSV datasets to S3, created JSON manifest files, and integrated with QuickSight to build interactive dashboards and visual analytics.

Invoice Automation System (Lambda, Textract, SES, DynamoDB)

- Automated invoice processing pipeline using S3, Lambda, and Textract for text extraction, storing structured results in DynamoDB, and notifying via SES.

S3 Versioning & Lifecycle Policies

- Enabled versioning on S3 buckets for data recovery, configured lifecycle rules to archive and delete old objects to reduce storage costs.

Static Website Hosting on S3

- Hosted a static site on S3 with custom domain integration, public access configuration, and error/index document setup.

EDUCATION

Master of Computer Application | CGPA: 6.92

2023-2025

Amity University Mohali, India

Bachelor of Computer Application | Percentage: 73%

2020-2023

Post Graduate Government College, Sector 11, Chandigarh

SOFT SKILLS

- Adaptability
- Collaboration
- Critical Thinking
- Problem Solving
- Time Management
